

AGELESS

NOTICE: This formula now contains an ingredient derived from milk.

Clinical Applications

- Supports Improved Body Composition*
- Supports Immune Function by Providing Immunoglobulins and Other Immune Factors*
- Supports Healthy Cytokine Production*
- Supports Intestinal Health*
- Supports Detoxification*

*AgeLess represents an innovative approach to biotransformation for individuals whose health is constantly challenged. This all-natural, fructose-free formula includes ingredients that promote overall gastrointestinal health and support detoxification mechanisms and cytokine balance in the body. AgeLess features patented and proprietary ingredients, including 21 g of Vegan Protein Blend, a non-GMO, vegetable-based protein, as well as ImmunoMax, Maligna Block (glucoraphanin), and arabinogalactan, a prebiotic. Practitioners have reported best results when AgeLess is combined with a modified elimination diet.**

All NutriMedical Formulas Meet or Exceed cGMP Quality Standards

Discussion

Vegan Protein Blend NutriMedical's proprietary blend of pea protein concentrate, pea protein isolate, glycine, taurine, rice protein concentrate, and L-glutamine provides 21 g of plant-based protein per serving of AgeLess. Vegan Protein Blend is easily digested, is gluten-free, and achieves an amino acid score of 100%.^[1,2] This amino acid profile supports protein metabolism and lean body mass. Aminogen[®] enhances protein digestibility and absorption.*

ImmunoMax is an immunoglobulin concentrate from colostrum whey peptides that delivers a minimum of 40% IgG immunoglobulin along with an array of compounds, including growth factors, sialic acid, lactoferrin, proline-rich peptides (PRPs), oligosaccharides, and gangliosides. Each of these components provides the user with different and complementary health benefits, such as fundamental support of immune function and modulation, lean body mass, brain and thymus health, microbiota modulation, and cytokine balance.*^[3]

Oral consumption of immunoglobulins derived from colostrum is a means of supporting passive immunity, protecting the body, and eliminating unwanted molecules.^[4-7] The most versatile, IgG, is capable of carrying out all of the functions of immunoglobulin molecules, accounting for ImmunoMax's broad range of immune-supportive effects.^[8] Review of the research confirms that bovine colostrum supplementation confers other benefits, such as the maintenance of gastrointestinal integrity.^[9-11] Oral immunoglobulins have been used in sports nutrition to support lean body mass,^[12] physical exercise, and recovery following high-intensity training.^[9,13] The 2.5 grams of immunoglobulins in each serving of AgeLess contribute to individual dosing requirements.*

ImmunoMax (glucoraphanin) This patented plant-based ingredient, also known as sulforaphane glucosinolate, is extracted from one of its most concentrated cruciferous sources—broccoli seeds.^[14] An abundance of research demonstrates that when glucoraphanin is broken down to its active form, sulforaphane, it safely and effectively upregulates the body's natural phase II detoxification enzymes.^[15-17] This activity in turn supports antioxidant activity and helps protect cells, cell membranes, and tissues from free-radical damage.*

Arabinogalactan Sourced from the larch tree, arabinogalactan is a non-digestible, soluble dietary fiber that contains arabinose and galactose monosaccharides. It is considered an excellent source of fiber, favorably supports gut microflora as a prebiotic, and serves as a precursor to short-chain fatty acids, all elements that help support gastrointestinal health.*^[18,19]

INGREDIENTS: Vegan Protein Blend (NutriMedical, Inc's proprietary blend of pea protein concentrate, pea protein isolate, glycine, taurine, rice protein concentrate, and L-glutamine), organic dried cane syrup, fiber complex (inulin (from chicory) and oat fiber), cocoa powder, sunflower oil, natural flavors (no MSG), ImmunoMax (immunoglobulin protein concentrate), arabinogalactan, cellulose gum, xanthan gum, medium-chain triglycerides oil, tripotassium citrate, Aminogen® (proprietary plant enzyme blend), sunflower lecithin, Maligna Block (SGS™ broccoli seed extract), guar gum, stevia leaf extract, and silica.

CONTAINS: Milk

Directions

Blend, shake, or briskly stir 2 level scoops (45 g for Vanilla) (49 g for Chocolate) into 8-12 oz chilled water and consume one to two times daily, or as directed by your healthcare practitioner. Adjust amount of water to desired sweetness and thickness.

Consult your healthcare practitioner prior to use. Individuals taking medication should discuss potential interactions with their healthcare practitioner. Do not use if tamper seal is damaged.

Per Serving (2 scoops) of AgeLess:

ImmunoMax	2.5 g
Arabinogalactan	1 g
Glucoraphanin (from Maligna Block)	30 mg

Produced under US patents 5,725,895; 5,968,505; 5,968,567; 6,177,122; and 6,242,018 licensed from Brassica Protection Products LLC. SGS™ is a trademark of Brassica Protection Products LLC.

AMINOGEN® is a Registered Trademark of Triarco Industries. AMINOGEN® is protected under U.S. Patent No. 5,387,422.

Typical Amino Acid Profile Per Serving:

Alanine	724 mg	Methionine	181 mg
Arginine	1,453 mg	Phenylalanine	920 mg
Aspartic Acid	1,950 mg	Proline	738 mg
Cysteine	162 mg	Serine	898 mg
Glutamic Acid	2,847 mg	Taurine	500 mg
Glycine	2,691 mg	Threonine	636 mg
Histidine	419 mg	Tryptophan	166 mg
Isoleucine	773 mg	Tyrosine	644 mg
Leucine	1,415 mg	Valine	844 mg
Lysine	1,221 mg
